4) Project Site

5) P10 - 1st Newsletter

- The coordinators talked about the last situation in their schools and countries. It was stated that the pandemia is affecting all partners and the cases of covid 19 have begun to increase after the summer holiday in partner countries. Wearing a mask is a must in all partner countries.

Conclusion:

- In the other meetings, the situation will be talked again.

- **C5-C6/The mobility in Portugal** was discussed and partners talked about the rules in their own countries according to pandemic situation. All EU countries and Turkey have almost same rules about travelling during Covid- 19 pandemic. Vaccination passport and PCR tests are wanted from passengers whether they are arriving or departing. Anyone suspected of having COVID-19 can be subjected to an isolation/quarantine if there is a

positive result. Portuguese School will inform the last situation to the partners before the mobility.

Conclusion:

- Portuguese School gave the date as 22-26 November,2021 for the mobility and all partners approved it. If the situation is impossible to visit the host school for partners in these dates, Portuguese School will prepare a virtual working platform.

- **P13 - Going On A Campaign (September – November 2021)**

-This activity aims at spreading awareness about bullying phenomenon to other schools in the partner cities. Each partner school has to carry out this campaign in at least one school in the neighborhood. Using all materials that have been created up to this moment: posters, songs, the leaflets, the website, the comics, the animations, the videos, pupils in all partner schools

-spread the anti-bullying messages to pupils and teachers from other schools. There will be organized presentations/workshops in other schools. Pupils will be involved in creating the campaign: making the program of the campaign, public announcements, leaflets and posters, PP presentations, photos, video materials, feedback of the participants, etc. The materials resulted will be uploaded on all project sites: eTwinning, Twin Space, project site so that anyone interested could use them. The materials resulted during the campaign (photos, participants' opinions, videos) are uploaded on Twin Space.

Conclusion:

- This activity will be discussed in the end of the September on a zoom meeting in order to redesign the campaign details as partner countries cannot visit each other during this period.

- **The application form will be checked by all partners to carry out the project activities well.**
- **Each partner will overwiew their own agreement documents or supplemental agreements included Covid-19 pandemic that were signed with their own National Agency. Travel budget involving these situations are appointed in these documents.**
- **During a virtual mobility, the numbers of students/teachers can show a change at the level of school or agreement documents but for a physical mobility, the number is the same like the previous mobility as 4 students and 3 teachers. But students will stay in hotels to keep the health safe because of the pandemia.**
- **The dates of the other mobilities will be decided in the future. Italian Partner make a prediction for the mobility in Italia as the second week of April to be a host.**
- **All partners agreed upon the possibility to make the mobilities in virtual format or blended type if possible.**

- **The Project website** is rearranged regularly by Italian Partner but Italian School Coordinator asked for the rest of materials to be sent him.

- **P10 - 1st Newsletter** which is organized by Greek is appreciated by all partners. Because it supplies and satisfies the objects of the project work as a newsletter. If there are some missing parts or mistakes,it will be completed and shared with other people in different platforms as a visual or written product.

Conclusion:

- The 1st Newsletter will be finished till the end of September.
